Help shape the future of our hard waste service

As the current hard waste contract comes to an end, it's a great time to review what's working and what needs to change.

Our current hard waste service

We offer two Council wide hard waste collections per year.

Last year we introduced an additional paid booked collection service. Both are well utilised by our community.

Why are we reviewing hard waste?

We are exploring how we can update the service to help with:

- » **Dumped rubbish.** This continues to increase in our city, with spikes just after, and in between, scheduled hard waste collections.
- » **Access for apartment residents.** Many of these residents face a range of barriers to using the hard waste service.
- » **Landfill.** Many items put out for collection are not rubbish, they could be recycled or reused.
